DEROULEDE AGAIN NOISY

He Excites Himself With Talk of a French Revolution.

An Hysterical Meeting of the Pa- that the two subcommittees reached retriotic Lengue in Paris-The Del- sults on three points only, namely, an pech-Pellieux Duel Hangs Fire-The Latter Proposes to Express His Contempt and Pass On.

Paris, July 16.-Paul Deroulede, in accordance with the declaration made by him ten upon striking the human body. There at his recent trial that he would continue was one dissentent on the second point, his agitation against the Government, con- and two dissentents and one absentation rened a meeting of the Patriotic League at the Theatre de la Republique this afternoon. The place was packed despite the extreme heat. Deroulede was given an enthusinstic reception, the favorite shout with which the crowd vented its feelings being "Down with the Jews."

Deroulede in an ardent speech reiterated his demand for a plebiscitary Repub-The President, he said, ought to be elected by a popular vote, and the nation should have the right to re-elect him as often as it pleased. Parliamentary sover eignty, he declared, must be abolished.

"It is useless cheering here," said the speaker, after one frenzied outburst. "Keep your energy until later. When the action comes, you will find me ready. When I cry 'Long live the French Revolution," it will mean that I am ready to make it. Then I will expect you to fol-

low me to the bitter end."

At this the excited assembly rose, men waving their hats and walking sticks, and shouting "Long live Deroulede," and "Down with the Jews," until they steamed with perspiration. A band then assisted in relieving the pent-up feelings of the audience by playing "The Marsellaise."

In the course of his speech Deroulede researced that if Drevius was proved innocent the nation must demand the pun-ishment of the generals who had deceived the French people. The assembly separated amid notsy excitement.

Ated amid notsy excitement.

M. Havet, in a letter in the "Figaro," replying to former Minister Lebon's defence of his treatment of Dreyfus, declares that by M. Lebon's own admission he arbitrarily aggravated the prisoner's punishment, because he did not desire to escape. It was clear, he said, that Dreyfus was tortured on account of his innecesses.

as tortured on account of his innocence. The duel between M. Delpech and General Pellieux hangs fire. It will be re-membered that M. Delpech's seconds re-fused to arrange a duel until General Duchesnes concluded his enquiry into the manner in which General Pellieux had con-ducted the investigation into the Ester-hazy case. This enquiry has ended in General Pellieux's favor, but it is rumored that a supplementary enquiry is pending and until this shall be concluded M. Del-pech's seconds decline to arrange a meet-They have received ambiguous replies from the ministers in response to their questions whether there will be a second enquiry.

General Pellieux has written to his secands thanking them for their services and adding: "M. Delpech can insult but he cannot fight. I express my contempt of

PELLIEUX'S DOWNFALL.

Guilty of Fabrication in the Denial of a Story About Plequart.

ndon, July 17 .- The Paris correspondent of the "Dally News" predicts General Pellieux's dismissal from his command. It seems that he lately pledged his word to General Gallifet, Minister of War, that he had never told a certain person a certain story respecting Colonel Picquart. has been shown a letter in General Pellieux's handwriting proving to the contrary and is satisfied that General Pellieux perjured himself. This circumstance probably explains why General Pellieux was notified last Thursday that he must not take command of the troops at the review at Longchamps on the national holiday,

s. July 16.-When Mme, Drayfus was leaving the prison here yesterday, after a visit to her bushand, she was sympathetically greeted by about sixty wo of all classes, who had assembled at the prison gate for this purpose. They ap-proached Mmc. Dreyfus, bowing respectfully and withdrawing without speaking.

KIPLING BITTEN BY A DOG. His Thumb Infinmed and His Arm in a Sling.

London, July 17,-The Brighton corre-"Daily News" says that while Rudyard Kipling was going to London from Rottingdean, his residence, some days ago, he was bitten by a dog, which fixed its teeth in his right thumb. The injury at first appeared to be of little conse quence, but later it became inflamed, and for the last few days Mr. Kipling has been carrying his arm in a sling.

ANDREWS' VOYAGE A FAILURE.

Picked Up in an Almost Exhausted Condition by a British Ship. Liverpool, July 16 .- The British steamer Holbein, which has arrived here from New York, brought Capt. William Andrews who, on June 18, started from Atlantic City, N. J., in a twelve-foot boat to cross the Atlantic. Captain Andrews was picked up on July 12, seven hundred miles from land in an almost exhausted condition. After the Holbein took him aboard he set his

Colombia to Pay Cerruti's Debts. Rome, July 16 .- All of Signor Cerruti's creditors have accepted Colombia's offer to pay their claims in full plus 20 per cent interest. The Italian creditors that they be paid in gold instead of Colombian currency. When they are placated the affair, which at one time threaten d serious trouble between Italy and Colombin, will be definitely settled.

THE PEACE CONFERENCE.

Report on the Work of the First Committee Completed.

The Hague, July 16.-Jonkheer Van Carnebeek, the senior Dutch delegate to the Peace Conference, has completed his report on the work of the first committee to which was referred the first four points of Count Muravieff's circular. It states agreement to abstain for five years from firing projectiles or explosives from bal oons, or by other new methods; secondly, to abstain from using projectiles solely in tended to scatter noxious gases; and thirdly, not to use bullets which spread or flaton the third.

The report proposes that the Conference declaration of St. Petersburg of November 11, 1568, extend it for five years to all three points. The hope is expressed that the powers represented at the Conference which did not subscribe to the St. Petersburg declaration will sign it now, inasmuch as the object of the restrictions are purely humane.

With reference to the proposal not to employ new types of rifles or cannons the report remarks that investigation and discussion have shown that a majority of the powers deem it necessary to technically investigate the matter in their own countries before settling the question. The commission, therefore, proposes that the Conference place on record the hope that the powers will study the problem with the which might finally be settled at a later

onference.

The report regrets the impossibility revealed at the Conference of arriving at a positive and immediate agreement on the question of fixing the strength of military and naval forces and budgets. Neverthethe Commission is strongly impressed with the idea that it is important to arrest military armaments, and recommends the solution of the question for the most se-rious consideration. It suggests that the Conference adapt the following resolution proposed by M. Bourgeois, of the French delegation:

The Commission is of the opinion that a re-striction of military bordenz, which are now a weight upon the world, is highly desirable to increase the material and moral welfare of hu-

Respecting the proposal to fix the amount of navai budgets the Commission declares that it is compelled to recognize that it was confronted by a question it could not solve and recommends its consideration by the powers. The report is to be read to-morrow. The various points of arbitra-tion are to be discussed and tomorrow's session promises to be an animated one.

Brooklyn Trolley Cars Obstructed and Furiously Stoned.

Sympathizing Mobs Do Most of the Vicious Work - A Messenger Boy Hit and Fatally Injured-Many Employes Remnin at Work - Belief That the Movement Will Fizzle.

New York, July 16.—The trolley strike tance away and a man yelled: "To hell brdered by the Knights of Labor in Brook-yn at 2 o'clock this morning failed to require the policy go in and upset the car." All the crowd wanted wis a leader, and they started forward after this man, who ordered by the Knights of Labor in Brooklyn at 2 o'clock this morning failed to result in a general tie-up. Considerably more than 60 per cent of all the cars that are usually operated were running all day should declare that the signatories of the and in every barn that the company owned there were motormen and conductors in there were motormen and conductors in reserve. Not only did the company run its Coney Island lines, but it opened a new line to Coney Island and kept it going sympathizers held up a crowded car of the all day. The worst feature of the strike was that from daylight on every hour was marked with disorder of a more or less serious nature. It is not possible to say at present exactly how many of the company's employes actually quit work. The company's estimate was that not more than 1,000 men were out. Out of a total of 900 men on the Nassau line It is estimated that between 600 and 700 quit, and it was said that of the thousands employed on the old Brooklyn Heights not more than 200 quit. The places of all the men who quit were taken by the extra men view to arriving at a solution, which is who quit were taken by the extra men unanimously recognized as desirable, and in the company's service and few rew men were needed.

Leaders Confident.

Mr. Parsons, the General Master Workman of the Knights of Labor, and Mr. Pines, the Master Workman of District Pines, the Master Workman of District Reynolds, Harrington, Gray, and Stoddard.

Assembly No. 75, who had used their utThey were making a trip to Coney Island most endeavors to prevent a strike at this time, declared today that the outlook for the success of the strike was bright. Mr. Pines said to the reporters that the roads

Pines said to the reporters that the roads were pretty well tied up.

Mr. Pines explained that there was some misunderstanding, and asserted that the men were going out as fast as was expected, and that by Tuesday morning everything would be tied up tight, while the company declared that there was no question of its ability to run its full complement of cars and no question of the ability of the police to protect them all night as well as all day. They, nevertheless, decided to close part of their lines less, decided to close part of their lines

In the afternoon there was a general conference at police headquarters. It was got it. Five men were arrested here, attended by President York and Commissioners Hess and Sexton, of the police were very many others of a similar char-

Police in Control.

At the conclusion of the conference the statement was made that the cars on some

STRIKERS IN BAD TEMPER years old, a printer, who lived in Union ect. There were plenty of people in crowd who wanted to ball him out, but the police order was that any man ar-

WASHINGTON, MONDAY, JULY 17, 1899.

rested for rioting would have to stay in jail and ball was refused. A mob of 500 gathered at Righth Avenue and Twentieth Street during the day. They bunted up all the stones in the neighbor hood and those that were too big to put in their pockets they piled on the car tracks, covering them for ten rods. Then, each armed with a stone, they waited for a car to come along. The motorman, con-ductor, and passengers in that car thought their last moment had come when the hall began. Inspector Thompson, two mounted policemen, and fifteen patrolmer swooped down on the rioters. The crowd scattered. It gathered again a little dis-

was finally captured and hustled out to the nearest police station, where he refused to give his name or his address. Twice again during the afternoon the police had to disperse this mob, and finally they put

cross-town line at Driggs Avenue and North Thirteenth Street. The strikers and their friends waited for the car behind the fence. They waited until it was just op-posite the fence and then rushed out and hurled their brickbats. One stone hit Peter Spader, a thirteen-year-old messenger boy, and fractured his skull. The boy will prob-ably die. Two prisoners were caught and were held on a charge of assault in the first degree

Another mob chose the street near the Greenwood Cemetery for operations. They piled boulders on the track and with their pockets full of stones, waited for a chance to kill somebody. The private car Ampere, which officials of the Rapid Transit Com-pany use in making wire and current tests. was the first car to come along. Its pas-sengers were Chief Engineer J. C. Breck-enridge, of the Rapid Transit Company; W. W. Wickes, the private secretary of President Rossiter; Mr. Van Cott, of the company, and four central office detectives, Beynolds Harrington Grey and Scieler.

Exciting Incidents.

When the boulders held them up som one in the mob hurled a stone, which hit the motorman and knocked him down. He fell from the platform of his car to the street, and as he fell another of the crowd seized a rock and made for him as if to finish him. Mr. Wickes hauled our and banged him in the jaw before he reached his victim. Then he grabbed him. The two fell together. The detectives were just a moment behind Mr. Wickes, and they got hold of the man and held him. In the mean time the rest of the crowd were firing stones at the cars. It was evident that the gang was looking for a fight, and they

attended by President York and Commissioners Hess and Sexton, of the police board, Deputy Chiefs MacKellar, of Brooklyn, and McLaughlin, of New York; General McAleer, of the National Guard, and President Rossiter, of the railroad. The situation was gone over and all of the gentlemen declared it to be extremely satisfactory, and not at all as serious as they had expected it to be. down the motorman and started to pum

the military headquarters of the Second Brigade, in the Hall of Records, where he remained for a couple of hours. This is necessary to fire a shot. That was in the

THE DEMOCRATS UNITED

Party in Ohio Lining Up for a Winning Ba'tle.

Former Governor James E. Campbell

There are few men who live in Ohlo that are not at the present time taking more or less interest in politics. The whole State seems to be alive with political enthusiasm. It is by no means confined to the professional politician, those who are earnestly engaged in business pursuits manifest as much concern as other

S. H. Williams, a gentleman well known in that State and a prominent Democrat. in his section, takes a cheerful view of the situation as it appears to him after having traveled in many parts of the State within the past week or two. In speaking to a Times reporter last night Mr. Williams said:

"The Democrats are in good shape in every county. They will make a winning fight in the campaign whoever the Democratic candidate may be. They have got the Republicans on the run all over Ohio. They are united as they have not been for ten years. There is not a factional fight of any importance in the Democratic organization. The McLean people and the Campbell people have come together magnanimously. Peter Sewab and Joe Dowling have buried their differences. The Columbus crowd, headed by Allen W. Thurman and Judge Ditty, will support heartily the Democratic nominee. The only jarring note in Democratic circles is heard from the editor of a Cleveland paper, and I believe he will fall into line after the convention. The reports of Democratic discord are all imaginary. The little factional excitement in one or two countries is based wholly on local causes. It wil in no way affect the Democratic

loyalty to the party on election day.

"We will fight the Republicans on local, State, and national issues. We can best them on any and all grounds they attempt to take. The people of Ohio are against trusts, against Hannaism, against the Kohlsaat attack on Senator Foraker, and are opposed to this latest scheme of the Republican party to fasten the single gold standard upon the people and thereby ex-clude silver and all other money from circulation. They believe that Republicans, if given absolute power over the currency of the country, will abuse that The Republicans themselves are at

Treasurer Sam Campbell is another in-stance. He was turned down also for no other reason than that he has been hones nd capable, and has refused to wear the Hanna collar. They sent Campbell one of Judge Nash's pictures and asked that i be displayed in the treasurer's office fo the edification of the faithful.

tore up the picture and pitched it into the "Then, there is the Republican League It is in the hands of the Foraker-Bushneil Kurtz crowd. The league naturally wants swim, clung desperately to the beat. When to have a say in the campaign. They want to be recognized by the Hanna-Dick re-But Dick gave them the cold shoul-He said he could manage to get along without them. I imagine they will un-deceive him before election day. The same thing is true of the Holcomb-McKisson people. They are going to see to it that they are not dragged in triumph

at Hanna's charlot wheels. "The Democrats are harmonious and uniting all over the State," concluded the Ohio man, "The Republicans are bellig-erent and discordant, and growing more o every hour. Trusts, the single gold sandard, and Marcus A. Hanna are being weighed in the balance by the people of our State. It is a pretty sure thing that each and all of them will be found want-

in the Grand Canyon, being searched for by
friends. With a party comprising Charles
H. Gibson, representatives of an Eastern
mining syndicate; George Gibson and Wilmington, Del., from drowning. A little later on Guard French rescued gines been heard from A pocketh Winfield S. Pugh, of Philadelphia. Mr. taining 25 cents, was found in Duck's father is employed in the suboyed in the sub- pocket. An inquest will be held tomortreasury at Philadelphia.

MUTINY OF CHINESE SAILORS.

Transport Tartar. San Francisco, July 16 .- The Government recently chartered the British steamer agent at Pine Ridge Agency, wired today Tarter for transport service. She had six- that the Indians who shot and killed Lame ty-seven Chinese, who were firemen, coal. Antelope across the line in Wyoming and passers, and waiters. These Chinese had resisted arrest, had arrived at the agency. igned for six months, but they fancied They are not Crow Indians, as suspected, that the charter annulled their agreement, and struck for dcuble pay from Uncle Sam. When this was refused they mutialed, and prepared to go ashore, but received a rude shock when they found that the troops barred the way. They have been prisoners for two days, and late this afternoon de-cided to accept original wages. What will be done with them is uncertain, but they Uable to heavy punishment and los

NOT SO VERY HOT.

The Humidity Was Great and the

People Sweltered. Not that the temperature managed to reak any records, but that the humidity was florer, was vesterday the most uncomfortable day experienced in many months by the sweltering citizenry of the District who are compelled by law to wear clothing, and through necessity to go forth from the humane shelter of ice houses and cellars. As is the thermometer the gauge of heat, so is the high cellar the measure of humidity, and the high collars worn during the day registered about 110 de-

The excessive warmth made the day a dull round of misery and little of the usual Sunday promenading was ne-complished. From 10 a. m. until 5 p. m. the streets were long drawn stretches of the atreets were long dreary stretches of baked desert. The brown layers of asphalt gave forth solid sheets of heat, and fee men dared beard old humidity in his element. Even the street cars exhibited a valued their horses allowed them a day Navy Department the discovery of a new of shelter.

Thousands of people field from the present heat and found a little relief around about | new channel has a depth of twenty-three the river reserts. It was such a day as cool individual in a vast line of clifzenry was a happy wanderer who had discov-erel n copy of a newspaper, dated Feb-

scored at 5 a. m., when the figures were 70 degrees. The thinderstorm which blew up last night was a slight immediate re-lief, and the torrents of rain cooled the streets. Today is destined to be warm, but the mercury and the humidity will hardly reach the figures inflicted yester-

day. Pennsylvania Railroad, July 29, 7:35 a. m.

WANT TO AVOID A STRIKE.

Lehigh Valley Officials and Employee in Compromising Moad.

Mauch Chunk, Pa., July 16 .- A well-inormed employe of the Lehigh Valley Railroad, said today of the strike rumors: There is great unrest on our road and especially among the firemen, but we are far from the strike. We do not want a strike and the company is also anxious to avoid one. Our grievances are largely local, one thing on one division and an entirely different thing on another division. The ofcials express themselves as willing to ad-just every grievance that we have and these meetings that are now being held at different places are largely for the pur-pose of formulating our grievances so that they may be presented to the company in an intelligent manner. The company has

and May Be Arrested. Deadwood, S. D., July 16.-Major Clapp, but belong to the Pine Rufge or Rosebud agencies. The agent is investigating the cars, and if they belong to Pine Ridge they will be arrested immediately. The osse has also arrived from Wyoming and

WATSON'S MOSQUITO FLEET.

Two Hundred Sallors Wanted for

Service in the Philippines. Orders have been issued by the Navy Department to enlist two hundred men for service on the small gunboats purchased from the Spanish authorities in the Philippines by General Otis and which have recently been turned over to the Navy by that officer. This will increase Rear Admiral Watson's mesquite fiest to thirteen vessels, which will greatly augment the patrol force among the islands. These light draft vessels are of invaluable assistance to the Army, as they are able to ascend the small streams. They will be armed with new rapid-fire guns and ar-rangements have already been made for he shipping of these from the United States. The captured cruisers Isla de Luzon, Isla de Cuba, and Don Juan de Austria which are undergoing repairs at usd in the active operations against the

A New Guantanamo Bay Channel.

Commander Fletcher, of the Naval Surspecies of tired feeling, and those who vey steamer Engle, has reported to the channel in Guantanamo Bay which was unknown to the pilots of the port. feet at mean low water, and Commander aused a man to fear to remain indeors. Fletcher says that by very little dredging secures of the heat, and to be afraid to possibly four hundred or five hundred tir outdoors because of the sun. The one yards, a depth of thirty feet can be obtained to the upper bay and Calmanera. cool individual in a vast line of citizenty was a happy wanderer who had discovery of this channel is of great value to the department for the railway company; 1899, and who was compelled to button up his coat us he pored over the loy narratives of a great blizzard.

The bighest temperature resterday was 92 degrees, at 2 p m., and the lowest was scored at 6 a, m., when the figures were made to the outer bay where it was proposed to establish a coaling station, white with little dredging mayat vessels will now be able to reach the railway terminus near Calmanera.
